# **SITUATION SUMMARY**

## **Governor Brown Proclaims State of Emergency for Eleven Counties**

On 04/19/16, Governor Edmond G Brown Jr. proclaimed a State of Emergency due to damages from March Storms impacting Alameda, Contra Costa, Del Norte, Humboldt, Mendocino, Napa, San Mateo, Santa Clara, Santa Cruz, Sonoma, and Trinity Counties. The proclamation authorizes California Department of Transportation to obtain federal assistance for highway repairs and reconstruction.

[Please click here to view the full proclamation.](#)

## **Los Coyotes Indian Reservation, San Diego County**

As a result of rains and flash flooding on the Los Coyotes Indian Reservation in San Diego County, Mission #2016-Southern-22320 was approved to address the community life safety needs, road repair, and other critical concerns in conjunction with [FEMA, Bureau of Indian Affairs \(BIA\), Cal OES Southern Region, Cal OES Tribal Advisor, Caltrans Region XI, San Diego County OES, and Los Coyotes Tribal personnel.](#)

- Caltrans installed five (8'x12') steel plates along with safety signage to provide temporary road stability and improved access over the Los Coyotes Reservation's only life line road.
- Stakeholders will continue to monitor the situation to provide long term solutions.
- [Per the Cal OES Southern Duty Officer \(SDO\), conference calls addressing the long-term road repair solutions are on hold pending the findings of the BIA's Transportation Manager/Engineers site visit.](#)
- [The Cal OES Southern Region Tribal Point of Contact, Territory Representative, and SDO continue to monitor the incident.](#)

## **Twin Pines Manor Apartment Complex, Sunnyvale, Santa Clara County (FINAL)**

On 04/15/16 an apartment fire occurred In the city of Sunnyvale, Santa Clara County.

- Sunnyvale Fire Department battled the two-alarm fire that resulted in two injuries and the displacement of several occupants.
- [Due to fire damage \(smoke and water\) to the egress areas the entire housing complex is considered uninhabitable.](#)
- Per the Cal OES Coastal Duty Officer (CDO), there are no requests for assistance or unmet needs at this time.
- [Fire destroyed 76 of the 81 units and displaced 110-140 residents due to smoke and water damage.](#)
- [It is unknown when the residents will be able to return, the landlord has agreed to return partial rental funds and three donation sites have been established for the fire victims.](#)

# **SITUATION SUMMARY**

## **Weather of Concern**

### **Northern California**

- Gradual cooling is expected for most of the region on Thursday.
- A weather system will bring a better chance of showers to much of Northern California on Friday.

### **Southern California**

- The onshore flow will increase overnight into Friday bringing increasing low clouds and fog and cooler temperatures.
- More significant and widespread cooling will occur this weekend along with increasing clouds.
- A few showers will be possible over and west of the mountains Friday evening into early Saturday.

# **WEATHER**

## **WEATHER SYNOPSIS BY REGION:**

### **NORTHERN CALIFORNIA**

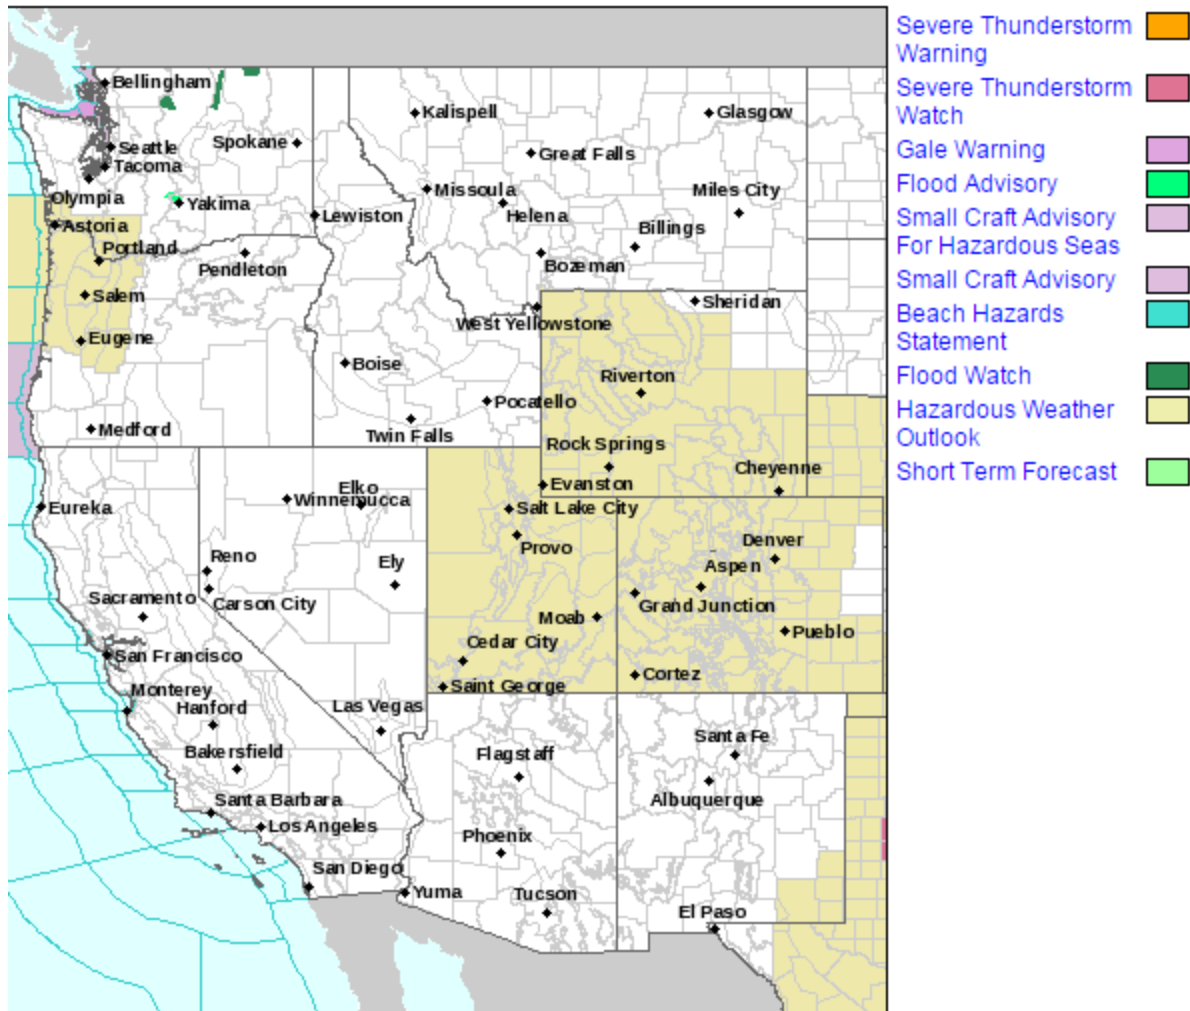

A weak low pressure area near the coast will produce clouds and scattered showers over the mountains today, mainly in the north and west. Isolated thunderstorms are also possible. Temperatures will continue to gradually cool today, but still be about 10 degrees above normal. Afternoon minimum humidity will be a bit higher. On Thursday a stronger low pressure trough will approach the coast. More afternoon showers and thunderstorms are possible in the western mountains. Clouds and southerly winds will increase across the entire North Ops region. Most of Northern California will receive rainfall Thursday night and Friday as the trough passes overhead. Snow levels will drop to about 5000-6000 feet with the trough. Partly cloudy and mild weather is expected Saturday into early Sunday, followed by another trough late Sunday and Sunday night. This next trough will bring light to moderate precipitation to the northern and eastern mountains. North to northeast surface winds will gust to 20-30 mph early Monday through early Tuesday, followed by a third trough that may possibly bring light rain to much of the region Tuesday night and Wednesday.

### **SOUTHERN CALIFORNIA**

The ridge which brought well above normal temperatures to the region is weakening and moving east. It will be replaced by a weak low pressure area which has been lurking off the coast the past few days. At the surface, onshore flow should begin to dominate the wind pattern which will lead to several degrees of cooling across the coastal communities this afternoon. But cooling inland will be less noticeable today and high temperatures will still reach the upper 80s in the warmest inland valleys. Thursday and Friday, the onshore flow is expected to become quite strong which will lead to temperatures falling to near, or slightly below, normal readings by the end of the week. There will be light scattered showers possible Friday and Friday night, mainly across the central part of the state. The Sierras and Central Coast may see 0.25" of rainfall with under a tenth of an inch elsewhere. All precipitation will end by Saturday morning. It will turn breezy along the Central Coast and the desert where winds of 15-25 mph with gusts to 40 mph will be possible during the afternoon hours Thursday and into the weekend. After cooler temperatures Friday, temperatures should climb a bit over the weekend due to weaker onshore flow. Another trough may bring very light rain to Central California during the first half of next week. Highs should cool back to near or below normal readings by next Wednesday with the marine layer likely becoming more prevalent by then. Gusty north winds may occur across the Central Coast, Santa Barbara County and the I-5 Corridor next Monday through Wednesday. After today, no excessive heat is expected during the next 7-10 days.

OF EMERGENCY SERVICES

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.
